WICHITA MARKETS.

Receipts of Live Stock at the Union Stock Yards during the past 24 hours-164 cattle, 400 calves, 1710 hogs, 48 horses. And for the week 774 cattle, 428 calves, 9458 hogs and 70 horses. Shipments for today 48 horses. The weeks receipts at the yards show a elight falling off from last week on both cattle and hogs, and is attributed to the extreme hot weather. There was rather more life in the cattle pens today, but more life in the cattle pens today, but the market is very unsatisfactory. There can be no improvement here until eastern markets steady down so that a shipper can tell some where near what his cattle will bring in case he ships them on. There is a fair local demand for good to choice butcher cows and heifers. No sale for other grades, Hog market opened steady at yesterday's top price \$3.45 and the bulk of the day's business was done on this basis, Packers took all the hogs except a few heavies which went to Mexico trade. From the Daily Trade Bulletin: The exports of flour and wheat from the United States for the twelve months ending June 30, were 109, 196,303 bushels. It should be moderated that the monthly figures contain only 78 per cent of the entire exports.

The above includes the revised figures for

The Cincinnati Price Current reports the packing of the principal points in the west for the week at 365,000 hogs, against 215,000 for the corresponding week in 1889. The increase since the opening of the season is 710,000 hogs.

Wheat-Receipts for the week 16,550 bu. The receipts were not as heavy as last week. The farmers seem to be holding their wheat with the expectation of getting higher prices. The market has ruled firm and demand active.

Corn-Receipts for the week 94,170 bu. The supply for the week exceeds that of last week by several thousand bushols. The market was active and prices show quite an advance. The dry weather in some sections of the corn belt has stimulated the markets great deal. The demand is very active.

Oats-Receipts for the week 93,30 bu. The supply is more than double that of last week and prices are 35,536 higher. The recent advance in the corn market, together with the partial failure of this year's eat crop has created a strong demand and the advance in price.
